

# Safety Data Sheet

## **BOSS® 802 Pool & Spa Silicone**

#### Section 1. Identification

Product Identifier BOSS® 802 Pool & Spa Silicone Synonyms 80251; 80250; 80201; 80200

Manufacturer Stock

**Numbers** 

02506CL10; 02506WH10; 02699CL01; 02699WH01

Recommended use Refer to Technical Information
Uses advised against Refer to Technical Information

## Section 2. Hazards Identification

Classification N/A

Signal Word Pictogram

Hazard Statements N/A

**Precautionary Statements** 

Response N/A

Prevention Use only outdoors or in a well-ventilated area.

Storage N/A Disposal N/A

Ingredients of unknown

toxicity

Hazards not Otherwise

Classified

**GHS** Classification Not a hazardous substance or mixture. **GHS Label Element** Not a hazardous substance or mixture.

0%

Other hazards None known

## Section 3. Ingredients

CAS	Ingredient Name	Weight %
7631-86-9	Amorphous silica	5% - 10%
64742-46-7	Distillates (petroleum), hydrotreated middle	5% - 10%

Occupational exposure limits, if available, are listed in Section 8.

#### Section 4. First-Aid Measures

Ingestion Get immediate medical attention. Only induce vomiting at the instructions of a

physician. Never give anything by mouth to an unconscious person.

Comments Treat according to person's condition and specifics of exposure.

Inhalation Material is not likely to present an inhalation hazard at ambient conditions. If

material is heated or vapor are generated, care should be taken to prevent

inhalation. In case of exposure to vapor, move to fresh air.

Skin Contact Remove from skin and wash thoroughly with soap and water or waterless

cleanser. Get medical attention if irritation or other ill effects develop or persist.

**Eye Contact** Immediately flush with water for 15 minutes. Seek medical attention.

## **Section 5. Fire Fighting Measures**

Suitable Extinguishing On large fires use dry chemical, foam, or water spray. On small fires use

carbon dioxide, dry chemical or water spray. Water can be used to cool fire

exposed containers.

Unsuitable Extinguishing

Media

Media

None known

Auto-ignition Temperature Not determined Flammability Limits in Air

Special Fire Fighting

**Procedures** 

Not determined

Self-contained breathing apparatus and protective clothing should be worn when fighting large fires involving chemicals. Determine the need to evacuate or isolate the area according to your local emergency plan. Use water spray to

keep fire exposed containers cool.

Unusual Fire or Explosion None known

Hazards

**Products** 

Hazardous Decomposition Thermal breakdown of this product during fire or very high heat conditions may evolve the following hazardous decomposition products:

Carbon oxides and traces of incompletely burned carbon compounds Formaldehyde Silicon dioxide

Depending on color, may also evolve: Metal oxides

#### Section 6. Accidental Release Measures

Steps to be taken in case of spill or release

Observe all personal protection equipment recommendations. Wipe up or scrape up and contain for salvage or disposal. Clean area as appropriate since spilled materials, even in small quantities, may present a slip hazard. Final cleaning may require steam, solvents or detergents. Dispose of saturated absorbant or cleaning materials appropriately, since spontaneous heating may occur.

Local, state and federal laws and regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which federal, state and local laws and regulations are applicable. Sections 13 and 15 of this MSDS provide information regarding certain federal and state requirements.

#### Section 7. Handling and Storage

Handling Use adequate ventilation. Product evolves acetic acid when exposed to water

or humid air. Provide ventilation during use to control acetic acid within exposure guidelines or use respiratory protection. Avoid eye contact. Avoid skin contact. Avoid breathing vapors, mist, dust or fumes. Keep container

closed. Do not take internally.

Storage Use reasonable care and store away from oxidizing materials. Keep container

closed and store away from water or moisture. This material in its finely divided form presents an explosion hazard. Follow NFPA 654 (for chemical dusts) or 484 (for metal dusts) as appropriate for managing dust hazards to

minimize secondary explosion potential.

## Section 8. Exposure Controls/Personal Protection

Occupational Exposure Ingredient Name ACGIH TLV OSHA PEL STEL Limits

Amorphous silica 10 mg/m3 6 mg/m3 Not Est.

Distillates (petroleum), hydrotreated middle 5 mg/m3 5 mg/m3 10 mg/m3

Personal Protective

Equipment

Goggles, Gloves

**Exposure Controls** 

Acetic acid is formed upon contact with water or humid air. Provide adequate ventilation to control exposures within guidelines of OSHA PEL: TWA 10 ppm

and ACGIH TLV: TWA 10 ppm, STEL 15 ppm.

Engineering Controls Local Ventilation: Recommended

General Ventilation: Recommended

Eye Protection Skin Protection Use proper protection - safety glasses as a minimum.

Wash at mealtimes and end of shift. Contaminated clothing and shoes should be removed as soon as practical and throughly cleaned before reuse. Chemical protective gloves are recommended.

Suitable Gloves:

Handle in accordance with good industrial hygiene and safety practices.

Respiratory Protection

Use respiratory protection unless adequate exhaust ventilation is provided or exposure assessment demonstrates that exposures are within exposure guidelines. Industrial Hygiene Personnel can assist in judging the adequacy of existing engineering controls.

Suitable Respirator:

Respiratory protection is not needed under ambient conditions.

If vapor/mist/dust/fumes are generated when material is heated or handled, respiratory protection recommended. Follow OSHA Respirator Regulations (29 CFR 1910.134) and use NIOSH/MHSA approved respirator. Protection provided by air purifying respirators against exposure to any hazardous chemical limited. Use a positive pressure air supplied respirator if there is any potential for uncontrolled release, exposure level are unknown, or any other circumstance where air purifying respirators may not provide adequate protection.

**Precautionary Measures** 

Avoid eye contact. Avoid skin contact. Avoid breathing vapor, mist, dust or fumes. Keep container closed. Do not take internally. Use reasonable care.

Comment

Product evolves acetic acid when exposed to water or humid air. Provide ventilation during use to control acetic acid within exposure guidelines or use respiratory protection.

When heated to temperatures above 150C (300F) in the presence of air, product can form formaldehyde vapors. Physical and health hazard information is readily available on the Material Safety Data Sheet.

Note

These precautions are for room temperature handling. Use at elevated temperatures or aerosol/spray applications may require added precautions.

## Section 9. Physical and Chemical Properties

Physical State	Paste
Color	Refer to
	product label
Odor	Acetic Acid
	Odor
Odor Threshold	N/A
Solubility	Not
	Determined
Partition coefficient Water/n-octanol	N/A
VOC%	23 g/L
Viscosity	200,000 mPa
	S
Specific Gravity	1.007
Density lbs/Gal	N/A

Pounds per Cubic Foot	N/A
Flash Point	>212F
	>100C
FP Method	Closed Cup
Ph	Not
	Determined
Melting Point	Not
	Determined
Boiling Point	>100C
Boiling Range	N/A
LEL	N/A
UEL	N/A
Evaporation Rate	N/A
Flammability	N/A
Decomposition Temperature	N/A
Auto-ignition Temperature	Not
	Determined
Vapor Pressure	Not
	Determined
Vapor Density	Not
	Determined

Note The above information is not intended for use in preparing product

specifications. Contact Soudal Accumetric before writing specifications.

## Section 10. Stability and Reactivity

Conditions to Avoid None known Hazardous polymerization Will not occur

**Chemical Stability** Stable

Materials to Avoid / Oxidizing material can cause a reaction. Water, moisture or humid air can

Incompatibility cause hazardous vapors to form as described in Section 8.

Hazardous Decomposition Thermal breakdown of this product during fire or very high heat conditions may **Products** 

evolve the following hazardous decomposition products:

Carbon oxides and traces of incompletely burned carbon compounds

Formaldehyde Silicon dioxide Metal oxides

## Section 13. Disposal

Waste Disposal Method

We make no guarantee or warranty of any kind that the use or disposal of this product complies with all local, state, or federal laws. It is also the obligation of each user of the product mentioned herein to determine and comply with the requirements of all applicable statutes.

This product is not known to be regulated under RCRA regulations. Disposal of unused portions of this product and process waste containing this product should be done only after a careful evaluation and in compliance with all federal, local and state laws.

#### Section 14. Transport Information

UN Number N/A

UN Proper Shipping Name Not regulated DOT Classification Not regulated Packing Group Not regulated

Air Shipment (IATA) Not subject to IATA regulations.

Ocean Shipment (IMDG) Not subject to IMDG code.

## Section 15. Regulatory Information

The contents of this MSDS comply with the OSHA Hazard Communication

Standard 29 CFR 1910.1200.

TSCA Status All chemical substances found in this product comply with the Toxic

Substances Control Act inventory reporting requirements.

SARA Title III Section 302

Extremely Hazardous

Substances

SARA Title III Section 313

**Toxic Chemicals** 

None present or none present in regulated quantities.

Note Chemicals are listed under the 313 Toxic Chemicals section only if they meet

or exceed a reporting threshold.

California Proposition 65 This product contains the following chemical(s) listed by the State of California

under the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65) as being known to cause cancer, birth defects or other reproductive harm:

None known

New Jersey Dimethyl siloxane, hydroxy-terminated (70131-67-8)

Ethyltriacetoxysilane (17689-77-9)

Hydrotreated medium petroleum distillates (64742-46-7)

Methyltriacetoxysilane (4253-34-3) Silica, amorphous (7631-86-9)

Depending on color, may also contain:

Carbon black (1333-86-4) Titanium dioxide (13463-67-7)

Pennsylvania Dimethyl siloxane, hydroxy-terminated (70131-67-8)

Hydrotreated medium petroleum distillates (64742-46-7)

Silica, amorphous (7631-86-9)

Depending on color, may also contain:

Titanium dioxide (13463-67-7)
