High Performance Aboveground Pool Heater

By Pentair Pool Products<sup>®</sup>

## The aboveground pool heater that gives you more

MiniMax<sup>®</sup> high performance aboveground pool heaters are compact, self-contained heaters sized specifically for your aboveground pool.

MiniMax 75 with an input of 75,000 BTUs is equipped with a reliable direct-spark ignition.

The MiniMax 100 with an input of 100,000 BTUs is equipped with either a reliable direct-spark ignition or a standing pilot and Presslite<sup>™</sup> millivolt internal ignition.

MiniMax heaters are the efficient and economical way to keep your aboveground pool at the optimum temperature.

- High thermal efficiency keeps operating costs low while directing more produced heat to your aboveground pool instead of into thin air.
- Thermostatic bypass valve minimizes condensation-related calcium scaling and corrosion, preserving heat transfer efficiency.
- Quiet, dependable operation from proven burner system.
- Service-friendly design includes bronze header system for long life and union connection fittings for fast draining and easy winterization.

## High Performance Aboveground Pool Heater

- User-friendly controls and low maintenance design simplify operation and upkeep
- Low profile design with rounded corners looks great in any yard
- Service-friendly design includes bronze header system for long life and union connection fittings for easy winterization

## Big heater features in a compact design

MiniMax<sup>®</sup> heaters are designed to heat your aboveground pool efficiently and economically. Check out the big heater features you get with this compact design:

- Ceramic tile insulation prevents wasteful heat loss, reducing cost to heat.
- Flow valve senses water flow for efficient operation by assuring water passes through the heater at the optimum rate.
- Built-in vent top for efficient combustion.
- Attractive, low profile design with rounded corners and durable weather-proof powder-coated housing for lasting beauty.
- One-year limited warranty. See warranty for details.

### ▶▶▶ Save Energy and Maintain Heat in Your Pool!

A pool cover is highly recommended to prevent evaporation, save energy, reduce chemical usage and help prevent debris from falling into the pool.

### More High Performance Products for Your Aboveground Pool
