

Wood and Concrete Resurfer

Encore for Wood And Concrete Features and Benefits

Resurface Wood Decks- Encore! is a composite coating that resurfaces wood decking, filling in cracks and locking down splinters. Encore creates a durable, slip-resistant surface and saves the consumer thousands over replacement costs.

Resurface Concrete- Encore can also be used to resurface concrete, filling in cracks up to 1/8" and creating a durable, impact-resistant surface.

Professional Grade- Encore Coatings' years of experience are rooted in the commercial coatings arena. The expertise behind the Encore formulations are currently on projects such as The Statue of Liberty Pier and the Port of San Francisco. This technology has been refined to provide professional grade products for residential use.

Unlimited Colors- Encore! is tinted by mixing 1-gallon of exterior latex paint into each Encore kit. This allows for the ultimate level of creativity and value to the consumer.

Best-in-Class Dry/Recoat Time- Encore is dry and ready to be recoated in 15-30 minutes. Competitive products require 4-6 hours between coats. Encore is applied and ready for use in less than half the time of competitors!

Fastest Growing Category in the Industry- In 2013 the deck resurfacing category was the fastest growing segment in the market. Your customer not only needs Encore, they WANT Encore. Get on board now!

Lifetime Warranty- Encore! provides an industry-leading warranty: A Lifetime Warranty on residential jobs and a 10-year warranty on commercial jobs.

***Testing*-** Encore! has off-the-charts 3rd Party ASTM testing. These tests include ADA-Compliant Slip-Resistant Ratings, Outstanding Abrasion Resistance, and Perfect Adhesion.

Water-Based- Encore! is non-hazardous and easy to clean up with just soap and water. Encore is also **Low VOC (Volatile Organic Compound)**- VOC's can be harsh solvents and are highly regulated in some states. Encore! has a very low VOC content, making it safe for adults, children, and pets.

Easy to Apply- With Encore! no special skills or tools are required for application. Only standard paint tools (paint brush/paint roller/etc) are needed to complete the job! If they can paint they can apply Encore!.
