AVOID DELAYS IN PROCESSING BY ANSWERING ALL THE QUESTIONS BELOW!

	CHECK ONE	YES	NO	CHECK ONE	YES	NO
1.	 Are there any non-removable handrails, grabrails, or ladders? a. "A-B" dimensions are required to front center of all rails, blocks, cups, and to the points where rails dip below coping. b. Distance rails extend into pool 			 9. Is there a planter or grass area? a. If yes, PLEASE SEND PHOTO, and give "A-B" dimensions. PT #'s/ b. Installation method in planters: 		
	Distance rails are set back from pool			Anchor-in-pipe. Do you want Loop-Loc Pipes?		
2.	Type of grabrail: Rail Concrete block/Anthony type Are there any raised rail sockets? a. "A-B" measure front center of socket.			 * (Number of stakes must not exceed 10% of total installation for safety and warranty qualifications.) 10. Is there a raised wall, raised bond beam, or raised planter2 	П	
3.	b. Height of socketsAre there any grab rocks?a. If yes, PLEASE SEND PHOTO!			or raised planter? a. If yes, PLEASE SEND PHOTO! b. Is wall strong enough for cover to attach to it with		
	"A-B" front center of each grab rock, and provide width of each. b. Width of each grab rock			snap hooks and eyebolts?c. "A-B" the beginning and end of the raised areas, as well as points along the wall, at 1' intervals.		
4.	Distance grab rocks are set back from pool Is there a non-removable fillspout? a. "A-B" dimensions needed for start and end of pipe. b. Fillspout is: □ Level with deck □ Raised If raised, how high?			 d. Height of wall (Please note: all Rectangles with 10' or more of raised wall must be priced as a Special Rectangle.) 11. Is there a waterfall or rock formation? a. If yes, PLEASE SEND PHOTO! 		
	Distance set back from pool c. Is end of spout below coping? Distance into pool			"A-B" the beginning, the end, and the front and sides of the formation, as well as the pool wall, at 1' intervals.b. Is wall strong enough for cover to attach to it with snap hooks and eyebolts?		
5.	Distance below coping level Is there a dive stand?			c. Distance rocks overhang pool edge 12. Are there varying deck levels?		
	Distance set back from pool "A-B" Measure base if closer than 2' from poolline. a. Is diving board removable?			a. If yes, PLEASE SEND PHOTOS! Indicate height of each level change, and "A-B" each level, including points on risers to show angle away from pool edge.		
6.	 b. Is LOOP-LOC Dive Stand Kit required? ls there a dive rock? a. If yes, PLEASE SEND PHOTO! "A-B" the sides and front of rock, as well as the pool wall, using 1' intervals. PT. #'s 			 13. If you answered yes to any questions in 10 - 12 please select tr wanted below: □ Raised Wall Treatment (No opposing eyebolts for SAFETY cover) □ Up & Over Treatment (SAFETY Limits: Max. Steen Step Step Step Step Step Step Step Step	ent ep Ht. 9";	
	b. Distance rock overhangs pool edge Distance rock extends below deck level			Steps Min., 3' Apart; Max. (LOOP-LOC will consider design preference secondary to SAFETY performance, unless otherwise instructed by dealer.)	Total Ris	e 18".)
7.	Are there slide legs within 2' of pool? a. If yes, give "A-B" dimensions to each leg, and give the			14. Is there a wood deck area?a. If yes, show location on sketch.		
8.	distance each is set back from pool edge. Is there a spa? If yes, PLEASE SEND PHOTO!			 b. Are Loop-Loc Wood Deck Anchor Flanges required? 15. ON-GROUND POOLS: Deck must be self supporting! 		
	a. Is spa to be included in this estimate/order? Is separate cover required for spa?			 a. Are there varying deck sizes?(If Yes, submit sketch.) b. If deck is wood indicate: 		
	One cover for pool and spa? b. Is spa raised above pool? If yes, how high?			16. COMMERCIAL POOLS: (ie: over 2,100 sq. ft <u>MESH only</u>) Pool type: □ Skimmer □ Gutter	d Bracke	ets
	 c. Is spa dividing wall flush with top of coping?			If gutter pool, PLEASE SEND PHOTO and give all gutter dime 17. Is mesh cover to be manufactured in a Designer Color?		
	 d. boos spa wain have an open spinway management of the spinway. e. If solid w/drains, is drain panel wanted in spa area? f. Are there any other specific spa cover design instructions? 			What color? Blue Gray Black 18. Are there any specific design instructions? Please specify!		
	Please specify!

MEASURING INSTRUCTIONS

- 1. Begin with a freehand sketch indicating inside pool dimensions. Include deck area, planters and any obstructions within 3' of the waterline. A photo of the pool is needed when rocks, waterfalls, raised walls, spas or *anything* out of the ordinary exists.
- Establish two points, "A-B" with "A" on the left as shown. "A-B" line must be at least 3' away from the pool and 2/3 the length of the pool; 20'-25' is typical (show this on the sketch). To mark "A-B" points on deck - use chalk marks, on ground - use stakes in the dirt.

NOTE: The "A-B" line **must never** cross the pool line and should be approximately 3' away from the pool at the closest point (4' to 5' away for pools over 44' long).

- 3. Using chalk, mark and number points along the inside edge of the pool at approximately 3' intervals. Number all corner points, ladders, handrails, grabrails, slide legs, rocks, spillways, spa walls separating spa and pool, fill spout and dive stand. 1' to 2' intervals should be used in small or tight radius areas and raised wall areas. At least 3 points along straight walls.
- 4. Measurements are now taken from point "A" to point #1, then point #2, and all the way around the pool. Then measure from point "B" to same point #1 and then #2, as you did for point "A". Measurements are listed in column format as shown.
- 5. Take measurements **between 2 known points** to determine the **length and width** of the pool. Additional measurements for difficult pools are suggested. Cross dimensions to any raised beam obstacles are also recommended.
